

Rain, Rain, Rain!

Dateline: 14 &15th November 2025

At least Roy's Pond benefitted

Hi Everyone

Just to let you know that Storm Claudia dumped 47.5 mm of rain on us in two days. We recorded 20mm on Friday at 08:30 and at 09:00 this morning we recorded another 27.5mm. So far this month the total is 67.5 mm which is the fourth highest November in our records. However, this year we are still well short of an average year's rainfall.

The Met office say their Woburn Remote recording weather station recorded 53mm.

Bye for now.

Dave Booth
